

MEMBER'S SHOWS - MARCH 26th, 2019

The Trillium Program Committee has set aside an evening to show Presentations by Members on March 26th.

The Presentations should be ready to hand in on March 12th to Clara Parsons. Please let me know if you are planning to participate.

This presentation can be in the form of an A/V Show with music or can be a series of images without music with or without narration.

It is recommended that your Presentation be no longer than 8 minutes.

Putting an A/V Show together is a lot of work but worth the effort when you see your images on the big screen being enjoyed by all.

Those using a PC could look into a Program called ProShow Gold put out by Photodex. Those using a Mac - have a look at Photomagico.

If you would like to work on a show and would like help please feel free to contact me.
Thank You -
